Problem Release B MSS development is being delayed due to not having access to Tivoli. Current schedule impact is estimated to be a 2.5 week slip. MSS needs the full set of Tivoli products: Tivoli/Enterprise Console, /Admin,/Courier, /Sentry, /AEF, and /EIF.			
Proposed Solution There are 10 Tivoli licenses alleged to not be in use. Release B MSS would like to have access to at least 2 of them on HP2 (relbhpms). Ideally, Rel B MSS would like to use them through the end of its development, but for now it must have something to get its schedule back on track.
